

DAILY NEVADA STATE JOURNAL.

237 Virginia Street

NO. 26.

VOL. LVII.

RENO, NEVADA, WEDNESDAY MORNING, OCTOBER 30, 1901.

VERDICT WAS FOR LONKEY

The Big Damage Suit Was Lost by the Plaintiff.

The big damage suit brought by John A. Christie, guardian of Herbert Christie, against O. Lonkey has at last been settled. The case has been before the Court for eight days all told, and was hotly contested by the respective parties. Yesterday the lawyers for plaintiff and defendant argued their cause, and the jury was instructed to deliberate upon their verdict shortly after 1 o'clock. A verdict was arrived at at 8 o'clock last night, and the jury stood 9 to 3 in favor of the defendant.

It is understood that the case will be appealed. Although young Christie suffered the loss of an arm, it was brought out in the evidence deduced that it was through no fault of the Company, and furthermore it was shown that O. Lonkey could not have been held responsible for the accident anyway, for the Sunrise mill did not at the time of the injury to Christie, belong to him; Mitchell and Porter were the owners then.

Torreyson & Summerfield and Benj. Cuyler were the defendant's attorneys, while Alfred Clantz and D. Leshman were of counsel for plaintiff.

N. S. U. Extension Program.

The University Extension is doing some very beneficial and highly appreciated work in Elko. A course of lectures by members of the University faculty has been arranged by Dr. Stubbs and the Elko County Board of Education for the benefit of the students and teachers of the High School.

The course comprises three lectures on chemistry by Prof. Wilson, three on travel by Prof. Church, three on art by Miss Martin, and three on English by Prof. Cushman.

These lectures will run through the months of December, January, February and March.

Oil Industry Is Profitable.

The development of the oil fields in California has been something wonderful during the past two years. Five districts in Southern California have productive wells possessing a monthly capacity of 1,559,600 barrels. In San Francisco alone the annual consumption of oil as fuel has increased 1,000 per cent, and a proportionate increase is noted all over the State. A conservative value of the California oil fields is put at \$100,000,000, not including the capital put into machinery and wells.

According to Mrs. Bowers, the "Washoe Seeress," Nevada has every bit the show to increase her mining interests as California has; for Mrs. Bowers prophesies that oil will be discovered in Washoe valley in such quantities as was never heard of before in all the history of the oil fields.

The oil industry is one of growing importance, and as there are indications of the valuable stuff in many sections of Nevada, we might live to see the Seeress' last prophecy come true.

The McKinley Mine at Ely.

The outcroppings of the McKinley mine at Ely, this State, show a lead ore that will go as high as \$100 to the ton. These properties were purchased by the late President some time ago and deeded to his wife. From all indications the mines are very rich, and a large body of ore must exist in that region.

Mrs. McKinley may shortly become a millionaire mine owner, and as mining machinery is being placed on her property, there is no doubt but what the Company who are developing them believe in the reported richness of the claims.

Headless of Fish Law.

An individual, partly concealed in the willows below the V. & T. bridge, passed the time of day yesterday in fishing in the Truckee. In another column of this issue appears a letter from the Deputy Game Warden against illegal fishing. We hope that those who have authority may surprise him who angles for trout in so conspicuous a locality in the close season.

Painful Accident.

Mrs. J. B. Williams met with a painful accident yesterday afternoon. She had been out driving, and when about to alight from her carriage, the horse backed suddenly, throwing Mrs. Williams violently to the ground, inflicting a painful accident in the shape of a broken ankle and several minor sprains.

Correct Location Blanks.

Location blanks, made out in the most convenient form known, and conforming in every respect with the mining laws of Nevada, can be had at The Journal office. Prospectors, or any one intending to locate a claim or two should take a look at these neat and correct notices of location.

TO PROSPECTORS AND MINERS.

A fine line of microscopes and compasses from 25 cents to \$2. at the Frank Golden Jewelry Store.

SOCIAL AND PERSONAL

Items About People Who Travel to and Fro.

Miss Pearl Laughton spent yesterday in Reno.

Camille Lonkey left for Verdi this morning.

N. A. Hummel returns to Wadsworth today.

R. A. Moncure of Constantia is in Reno on business.

Henry A. Butters came in from Constantia yesterday.

Dave Miller of Eden Valley is a guest at the Palace.

John Moffatt ran in from Golconda Hot Springs yesterday.

Mrs. Ed. Monahan was an arrival on last evening's V. & T.

Prof. P. B. Kennedy went down with the football boys yesterday.

Thos. Pixley, Chas. Mitchell and J. E. Souchereau have returned to Verdi.

H. R. Cooke has returned from Tonopah, where he went on legal business.

H. Clark, representing the Cordova Vineyards of California, has business in Reno.

Frank Paul, Assemblyman from White Pine, is spending a day or two in town.

D. Hudgings and wife are guests at the Arcade. They came in from Bodie yesterday.

W. H. McInnis came up from his tour through Wadsworth and Orlinghouse yesterday.

Myers and Sellers, the cattle-buyers, are here for the purpose of laying in a supply of Nevada beef.

H. Levy and Barney Horn, cattlemen from San Francisco, are busily engaged in buying Nevada cattle.

The ladies of the O. M. Mitchell Relief Corps are to give a Hallowe'en party Thursday afternoon in Investment Hall.

Shall We Have a Carnival Week?

Communications have been received by the officials of the town of Reno from an Amusement Association of San Francisco in which very urgent terms are put forth for these same honorable bodies to take into consideration the project of holding a Street Carnival in this city, instead of the annual State Fair, next year.

Those who did the intricacies of the Carson City Carnival and Street Fair will be able to judge just how these institutions are carried on.

With all the little side shows and fairies and glitter and glare of tinsel, Renoites would certainly be able to pass a very giddy week, in which troubles could be drowned in the galleries of a Mardi Gras, etc.

Let us have a Street Fair by all means.

A HANDSOME PRESENT.

A beautiful line of elegant hand painted China at Golden's Jewelry Store. Call and examine our stock, the finest on the coast.

TELEGRAPHIC BREVITIES

News of the Day Presented in Brief Form for Perusal by Busy Readers.

Thirty persons are reported to have lost their lives in a race war in Louisiana.

A miner was rescued from a mine in Utah after being entombed for sixty-one hours.

There is a revival of rumors to the effect that Miss Stone has been killed by her abductors.

Rumors of King Edward's illness will retard preparations for the coronation of England's new king.

A kinetoscope owner offered Warden Meade \$2,000 for permission to take a picture of Czolgoz entering the death chamber.

Czolgoz made a brief speech just before the current was turned on, saying that he was not sorry for what he had done, but expressed regret that he had not seen his father.

President McKinley's assassin was electrocuted at 7:12 o'clock yesterday morning. He faced his doom with stolid indifference, and remained unrepentant and sullen to the end.

Laid to Rest in Mother Earth.

L. J. Wintermanite and Mrs. Marian Brush, both of Elko, came in to attend the funeral of their mother.

The funeral of Mrs. Wintermanite took place from the home of Edward Barber yesterday afternoon. The services were conducted by Rev. Mr. Unswoorth, and the simple and impressive Episcopalian burial sermon was quite in accord with the good, true life of the woman who has forever left this troubled sphere. The interment took place at the new grounds west of town.

All Quiet in Halls of Justice.

Judge Linn took a long, quiet rest yesterday; there were no offensive hoaxes, no drunken Indians, not even a petty larceny case ruffled the calm of the Justice Halls. However, Judge did issue a certificate to a man who lagged in a sackful of coyote scalps, and the genial J. P. spent a half hour clipping the ears off from many scalps of the noxious animals. Coyote scalps bring in a bounty of 50 cents per capita, and for him who slays a ferocious wild cat a big iron dollar is due.

Roll of Honor.

The following is the Roll of Honor for Anderson's District for month of October:

Elsie De Remer, 99; Myrtle Drake, 99; Echo Drake, 98; Blaine Hanson, 93; Grace Etchegoin, 97; Lon Longfield, 92; Bertha Peterson, 95; Willie Peckham, 90; Roy Morton, 94; Chester Twaddle, 91; Bernard Etchegoin, 90; Herbie De Remer, 95.

ETHEL M. PECKHAM, Teacher.

Only One License.

A license was issued to Benjamin F. Andrews permitting him to wed Louisa E. Adams. The groom hailed from New York State, but the bride was a native Californian. Their ages were a little out of the ordinary figure for those of a bride and groom. The man claimed sixty-three years, and the bride—well that would be telling.

Reno Emporium.

The Racket Store has been purchased by J. P. Eaton, of Bedding. The fuller space in the building has been more than doubled and the interior made very attractive. The store will be a department one—an emporium. Mr. Eaton's ad appears in this issue of The Journal.

To Exploit Tonopah.

A combination of Salt Lake capitalists have invested \$200,000 in the wonderful camp of Tonopah; and from all accounts these gentlemen have bought up sufficient ground in Tonopah to control a major interest in the future proceedings of the camp.

Grapes for Sale.

Offers will be received for a carload of grapes that were in the wreck that occurred in the Reno yards last Sunday. The grapes are of a choice table variety, and in first-class condition. They can be viewed at the freight depot.

The work of grading for the poles to carry power to the Butters cyanide plant in Six-mile canyon began today with great vigor. About 12 Comstockers were among the men employed on the work. At the present rate of progress it will not take more than 10 days to finish the job of putting up the poles. The men employed in the work are receiving union wages.—Chronicle.

FUTURE OF STEAMBOAT

Experts Pronounce the Hot Water District a Wonder.

The San Francisco News Letter of the 26th devoted considerable space to an article on Steamboat Springs and its outlook, owing to the rich gold find which promises to be a wonder.

It states that some years ago U. S. geologists who camped at that point for some three months, in their report claimed that from the properties contained in the waters of those geysers that there could not be any doubt but that gold was being precipitated within thirty or forty feet from the surface. This claim was further substantiated by geologists sent out from the California State University. At that time, the springs were spouting from thirty to forty feet in the air, the water being about 140 degrees.

With the construction of the Sutro tunnel many of these springs became extinct and it was while boring for an extinct spring that the discovery of the rich prospect was made. Owing to the peculiar formations into which he had run, Mr. Hopkins decided to have the rock assayed, the result being a value of \$2,000 and over to the ton.

Every bit of the property in this locality is now staked out. Mr. Hopkins and the Butters Brothers, who have made a fortune mining in South Africa, are at work with a force of men and machinery sinking shafts.

The News Letter claims that in all the purchase and bonds will aggregate \$2,000,000 and that within sixty days the territory will be proven and if the deposit is found which Mr. Hopkins struck, the amount taken from the field will be wonderful.

The highest assay given is \$4,400; the lowest \$87 to the ton, and with geologists reporting the precipitation of gold, hopes run high, and that section may prove one of immense wealth.

Reno Mining Co. to Develop Claims.

The Reno Mining Company, in which firm are listed some of Reno's most energetic citizens, is to put a force of miners to work in their mines that lay about a mile to the east of Henry Ritter's mine.

This Company expects to do extensive developing work all through the winter, and as the assays of rock taken from these claims run up to very good figures, the corporation's prospects are very pleasing.

The principal stockholders in the Reno Miners Company are Bob Parry, Henry Ritter, Dave Dysart, Prof. Caffrey and G. W. Burton.

Most likely ore shipments will be made from the claims before long.

Masonic Honors Conferred.

U. S. Surveyor General Matthew Kyle was advanced to the degree of a Knight of the Court of Honor in the Scottish rite by the Supreme Council at its recent session in Washington, D. C.

JOHN H. DENNIS, Editor

CORRUPTION FUND URGENT.

THE political campaign in Ohio is waxing not only warm but torridly hot. The Republicans would have it appear outwardly that they are certain of an overwhelming victory, but the inside movements are to the contrary. Although they have a large force of more than an ordinary talent, of home stump speakers, they are bringing into the State all they can procure, of outside men of reputation and ability. But more than that, they are making appeals to federal officials in other States to swell their fund for election purposes. Even here in Nevada we know of one instance where a small federal office holder received a slip from the Ohio State Journal which contained a very broad hint for a contribution, and doubtless one of the same character has been sent to most of the federal officials in the country. There is a provision of the civil service law forbidding the sending of appeals for campaign funds to office holders, but this has been gotten around by Hanna's committee in the manner above mentioned. The article on the slip calls attention to the fact that a circular, which was sent out by the Ohio State Executive committee two years ago for contributions, aroused so much criticism that none will be sent out this year. Then follows an interview with W. F. Burdell, treasurer of the Republican State finance committee in which Mr. Burdell says no begging circular will be sent out and continues:

"We believe that Republicans throughout the country realize the importance of this year's campaign in Ohio. A Democratic victory here would be in the light of a rebuke to the national and State administrations, and would seem to foreshadow the election of a Democratic house of representatives next year. It would mean that this State would be redistricted and the number of Democratic Congressmen from Ohio largely increased. Realizing the importance of this year's campaign, we feel sure that Republicans all over the country will gladly render their assistance without waiting for the formality of a letter from our committee. It is only necessary they should know that we will be glad of their help."

No doubt the party managers plume themselves upon their cleverness in thus whipping the devil around the stump, which is an actual defiance of the law. And still we hold up our hands in horror at anarchy in its mildest form, and marvel what it feeds upon in a country where law and order is so stringently supreme as here.

POINTED POLITICAL PARAGRAPHS.

(From the Commoner.)

The appearance of Mr. Alger's book would seem to demand another naval inquiry.

The wool growers who listened to the palaver about "protection of home industry" are not saying much, but the indications are that they spend most of their waking hours thinking.

The appointment of a Republicanized Democrat to a fat federal office is calculated to make the "re-organizers" more vociferous than ever. There is nothing like Republican pig to make a "re-organizer" vociferate strenuously.

Rudyard Kipling declares that the British army is to be hauled back into the old ruts. And this, too, after the Boers have thrown the British army into the dumps.

The basis for the refusal to honor a requisition for Taylor is that he will not get justice. It may be, however, that this is another way of expressing the fear that he will.

Fusion in New York against a "machine" is praised by the Republican journals that spend a considerable portion of their time denouncing fusion in the west against a "machine."

Abdul Hamid would save a lot of time and worry by paying the ransom demanded for Miss Stone.

Did Secretary Gage ever try to devise a financial system that did not contemplate giving the banks the best of it?

Will the representatives of the great trusts arrange the tariff schedules in the interests of labor? It will be remembered that the protected giants arranged the tariff schedules under that pretense.

With the advent of cold weather the general public begins to realize something of the difficulties Admiral Schley experienced in coding.

It seems that Mr. Gage's idea of an elastic currency—a currency that can be molded by financiers for their own benefit.

THE non-union men who took the places of the longshoremen strikers in San Francisco and who remained at work, have formed a union by themselves. Although they opposed the regular union,

they recognize the necessity of laboring men combining for their own protection, hence their organization of a non-union union.

THE TOBACCO TRUST WAR.

THE greatest battle for the control of an article of commerce ever known is now on between the Universal Tobacco Company and the Consolidated Tobacco Company of America, both American trusts. The Universal Company has allied itself with the Imperial Company of Great Britain which represents 90 per cent of the European tobacco industry, and has a capital of \$75,000,000 to fight the Consolidated Tobacco Company of America. The president of the latter combine declares that he will capture the British trade in four years or lose \$5,000,000 in the attempt. Perhaps the greatest interest in this contest comes from the incidental statistics which show the vast amount of tobacco that goes up in smoke every year. These statistics show that the world's production of the weed each year is 850,000 tons, by far the greatest portion of which is used for smoking purposes.

Although not a user of the weed, the late James G. Blaine always classified tobacco as "one of the necessities of life." He maintained that its almost universal use by man precluded all possibility of its being classed as luxury. Regarding then, the products of tobacco as necessities of life, the fight between the great trusts for the control of the trade assumes greater significance and importance. Another interesting feature is that it tends in a measure to verify the predictions of some of our economists that the big trust will ultimately destroy each other. But the greatest source of wonderment is perhaps the fact that such a battle of giants should be incited by a plant which for thousands of years before the discovery of America, the people of the earth, outside of the western hemisphere knew not the existence of, but which has now become a world-wide solace to mankind and which requires more than two millions of acres of land for its production. But the most consoling feature of the struggle is that while the giants are tugging away at each other's throats the consumers are pretty certain to derive some profit from it.

ALL AROUND THE STATE**A Few Gleaned Paragraphs of Nevada News.**

A switchman, by name of Charles M. Guernsey, was killed in Winnemucca yards last Sunday afternoon.

The Tribune says that so far this season 29,000 sheep and 10,000 cattle have been shipped into Lovelock valley to be fed.

Edgar T. Hale, formerly a highly-respected citizen of Virginia City, was killed in the Pennsylvania mine in Nevada county, Cal., last Friday morning.

Truckee must be a pretty lively burg at present. The Republican devotes a column to the trial of petty offenders who have worried justice in the mountain town.

The Supreme Court was in session a short time this morning and adjourned until Wednesday, when the re-hearing in the Yerl-Cohn case will be heard.—The News.

The Canyon Light and Power Company is the name of the company organized for the purpose of putting in an electric plant some miles up the Walker river from Verlengton.

There are now thirty-eight freight crews on the road between Carlin and Wadsworth, as against twenty-six at this time last year. The heavy freight business necessitates the frequent addition of crews.

A deal for fifty mining claims, near Ely, has been closed in Denver for \$50,000. The ore is said to show 30 per cent copper. A railroad from Ely to Eureka is included in the purchaser's plan.—Lyon County Times.

Winnemucca is undergoing a great transformation of late. The good people of that flourishing town have become imbued with a spirit of progress. A number of fine improvements have dressed up our sister village in municipal style. Keep the ball a rolling, Winnemucca, and who knows but what you will be more than an oasis in the great desert.

MINING IN THIS STATE**Culled News of Nevada's Most Important Industry.**

Last week's ore shipments from Eureka were 156 tons and from White Pine 57 tons.

Coral land has been taken up in White Pine county, just over the Lincoln county line. Ed. L. Robertson says that they will at once start sinking a shaft and see what is in the ground.

A car of fire bricks went through to Mound House this morning from Pittsburgh, destined for Keeler, where they will be used in the construction of a new furnace at the soda works.—News.

One has been struck at 85 feet depth in the Cabin Shift of the Salt Lake Co., south of Tonopah and near the Valley View ledge. The character of the ore is similar to that in the Tonopah mines and values obtained are encouraging.

Since the fire at Copper King District the work of repairing the damage has been pushed by Supt. L. C. Bradley, the mines being nearly retimbered, and when the debris is removed from the mines development work will proceed.—Lincoln County Record.

Work at the oil well is progressing rapidly. The derrick was up sixty feet Saturday night and will soon be completed. If storms do not interfere with the work, boring will begin in about ten days. The engine was loaded today and will be taken out tomorrow.—Elko Independent.

In a few days more the fires at the furnaces of the Glasgow & Western Exploration Company at Golconda, Nev., will have been rekindled and the production of copper, gold and silver bearing bullion resumed. Already a crew of smelters organized in Salt Lake have been dispatched to the plant.

R. Battels of Golconda says that operations will probably be resumed in his mine and smelter of the Glasgow & Western Co., very soon. The Salt Lake office has ordered the water pumped from the mine's lowest workings. Since the shut-down a year ago he pump has been kept running to prevent the water from rising above the 200-foot level.

TOT CAUSES NIGHT ALARM.

"One night my brother's baby was taken with Croup," writes Mrs. J. C. Snider, of Crittenden, Ky. "It seemed it would strangle before we could get a doctor, so we gave it Dr. King's New Discovery, which gave quick relief and permanently cured it. We always keep it in the house to protect our children from Croup and Whooping Cough. It cured me of a chronic bronchial trouble that no other remedy would relieve." Infallible for Coughs, Colds, Throat and Lung troubles. Fifty cents and \$1. Trial bottles free at S. J. Hodgkinson's drug store.

SEEDS! SEEDS!

In order to facilitate the delivery of seeds, Mr. Newlands requests all those desiring a quota of seeds next spring, to send in their applications at the present time, thus assuring an earlier delivery than would otherwise be possible. Address all applications to Francis G. Newlands, House of Representatives, Washington, D. C.

Lonely Homes

A home is never complete without children. Yet many homes are childless. Many wives are desolate for the lack of a child to love. Their lives are aimless—void of the high motives of motherhood. While barrenness is causing incalculable sadness and sorrow, it exists in most cases on account of some little female trouble, which Wine of Cardui would speedily set right. This pure Wine regulates the disordered female organs by building up the worn out nerves and regulating the menstrual flow. It restores the fallen womb to its proper place. By strengthening the generative organs, it makes pregnancy possible where barrenness exists. You can depend on

WINE OF CARDUI

Suffering women all over the land have been won over to it for seventy-five years. No more convincing proof can be given than the testimony of Mrs. Benson, who is only one of thousands of women to whom Wine of Cardui has brought a permanent cure. Many cases of miscarriage—that trouble which robs mothers of their hopes—have been avoided by timely use of the Wine. You are asked to try Wine of Cardui and Thedford's Black Draught, its companion medicine. Nine out of ten cases of female trouble, barrenness included, yield to them. All druggists sell \$1.00 bottles of Wine of Cardui.

Vandervoort, Ark., April 2, 1900.
Your Almanac and my husband got me a bottle of Wine of Cardui and it has done wonders for me. I am now able to walk again after taking three bottles and have another to take which I got this morning. I am expecting to become a mother and Wine of Cardui will be my doctor.

Mrs. MARY L. BENSON.
Department, The Chattanooga Medicine Company, Chattanooga, Tenn.

E. VERNON,
Virginia St., near Iron Bridge**GAME LAW DISCUSSED****Facts Written by One Who is Well Versed.**

Editor Journal—it is quite evident that there are a number of people living within Washoe county, that are antagonistic to game and fish legislation and it is an open fact that for many years past our fish and game laws have been winked at, and were simply "dead letters." Not until the last year past has there been a stop put to openly violating our fish and game laws, and they have been rigidly enforced of late. The last session of our Legislature prepared a codification of all the fish and game laws that were scattered through our Statute books. Now they are considered unpopular, for no other reason than that they are meeting the purpose for which they were created. The law in regard to which there has been a great deal of contention makes it illegal for any one to buy or sell game at any season of the year.

The observance of this regulation seemed to work great hardship on market men, and it was decided to make a determined attempt to have the statute declared unconstitutional, but the constitutionality was established by a decision of the Supreme Court a few days ago upholding the Act in question.

From this late decision we now hold that there is no more room for contention as to the right of a State to enact stringent protective laws, for the people of a State, in their sovereign capacity, own the fish and the game within its borders and may say through its Legislature how, when and where the game and the fish may be taken and disposed of. If a law is superfluous, and public sentiment is against it, let it be repealed, but while it remains on our Statute books it is the duty of the public officials to see that it is enforced. It is held by a few unprogressive people that it is an injustice to restrict the shipping of fish out of the State—that it shuts off a source of revenue and works a hardship on a few fishermen who came here to deplete our streams. We want legislation; that which confers the greatest benefit upon our State, and that which will maintain a lasting supply of both fish and game.

This season there came to Verdi eighty visiting sportsmen, leaving in our little town more than two thousand dollars. There also came one man who is scientific and practical in his knowledge of fishing, who left with us (during the six months of open season) what it cost him for a mere living. The eighty visiting sportsmen took from our stream less than 500 pounds of trout, while one man engaged in the vocation of fishing relieved our stream of more than three thousand pounds. The above figures have been correctly gathered and tabulated.

J. P. MORRILL, Verdi.

STEPPED INTO LIVE COALS.

"When a child I burned my foot frightfully," writes W. H. Ends, of Jonesville, Va., "which caused horrible leg sores for 30 years, but Buckle's Arnica Salve wholly cured me after everything else failed." Infallible for Burns, Scalds, Cuts, Sores, Bruises and Piles. Sold by S. J. Hodgkinson, 25 cents.

A FIENDISH ATTACK.

An attack was lately made on C. F. Collier of Cherokee, Iowa, that nearly proved fatal. It came through his kidneys. His back got so lame he could not stoop without great pain, nor sit in a chair except propped by cushions. No remedy helped him until he tried Electric Biters which effected such a wonderful change that he writes he feels like a new man. This marvelous medicine cures backache and kidney trouble, relieves the blood and builds up your health. Only 50 cents at S. J. Hodgkinson's drug store.

BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not only nourish a particular part of the body, but it will sustain every other part. Yet, however good your food may be, its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store.

Get Green's Special Almanac.

PIANOS ON EASY TERMS.

And at prices to suit any one. The prices range from two hundred and twenty-five dollars up—twenty-five dollars down and the balance in ten-dollar monthly installments.

These pianos are all fully guaranteed and have the latest improved action and are the style upright. No one on earth sells better pianos or better-toned pianos, or gives more value for the money than C. J. Brookins. Brookins has lived and sold pianos in Reno for thirty years. Why not buy your piano of Professor Brookins, who knows all about pianos and has made them a great study for thirty years? Call at 224 Virginia street, C. J. Brookins' store.

WOMEN AND JEWELS.

Jewels, candy, flowers, man—that is the order of a woman's preferences.

Jewels form a magnet of mighty power to the average woman. Even that greatest of all jewels, health, is often ruined in the strenuous efforts to make or save the money to purchase them.

If a woman will risk her health to get a coveted gem, then let her fortify herself against the insidious consequences of coughs, colds, and bronchial affections by the regular use of Dr. Boscche's German Syrup. It will promptly arrest consumption in its early stages and heal the affected lungs and bronchial tubes and drive the dread disease from the system. It is not a cure-all, but it is certain cure for coughs, colds and all bronchial troubles. You can get Dr. G. G. Green's reliable remedies at Hodgkinson's drug store.

Get Green's Special Almanac.
